Graham**

OCTOBER 29-30, 2018

Clyde Muse Center | Pearl, MS

TODAY'S
COMMITMENT
TO TOMORROW'S
TRANSPORTATION

The construction, maintenance, and preservation of Mississippi's infrastructure present unique and complex technological challenges. As we explore the future, Suzanne Murtha will discuss how automated and connected vehicles will shape the nation's transportation network. We will get a bird's eye view of drone technology applications for your organization after hearing from Alicia McConnell, Jennifer Urban and Kris Graham.
